

Dare Transform

A Great **HUMAN-SCALE UNIVERSITY**

Ours is a human-scale community. Here, individuals draw strength from their relationships with each other. Proximity, accessibility and openness to others contribute to making

UdeS an ideal place to study, work and live.

COMMITMENT

Our Bond, our Strength

UdeS members share a sense of belonging. We take pride in our individual and collective achievements. We strive to address the changing issues of the present and endeavour to meet the needs of the future. Commitment shapes our individual and social responsibilities.

INNOVATION

Venture off the beaten path

Innovation is an integral part of our DNA, placing us at the cutting edge. We think outside the box, embrace creative risk and original change. Ours is a journey that transforms the present.

EXCELLENCE

UdeS's hallmark

UdeS is a benchmark for the highest standards of teaching and research. Here, we believe that efficient collaboration, agile adaptability and thoroughness are key to implementing creative solutions that shape society and build a better future.

Enrich UdeS programs, training and the university experience

Stimulate research development, in particular, by building on interdisciplinarity

Develop pride and engagement throughout the entire university community

Position UdeS's vital contributions to human society

Dare Transform

Skills and critical thinking to transform society

1. Nurture and value the acquiring of practical experiences throughout our programs
2. Enrich our students' transversal skill sets
3. Promote student guidance and shorten graduate-study duration
4. Increase interdisciplinarity in programs, in particular through the integration of activities that bridge disciplines, faculties, and university boundaries
5. Ensure the thoughtful integration of digital means into training in support of the teaching and learning experience
6. Broaden and recognize international and inter-cultural experiences and activities

World-class research at a major, recognized hub

7. Dynamize and develop our unifying research themes and groups of excellence
8. Maximize our research projects' achievements and impact
9. Recruit the highest quality faculty and ensure they realize their full potential
10. Improve the University's attractiveness and student recruitment in research tracks
11. Develop novel approaches to networking and funding, collaboratively with our partners

A place to study, work, achieve and belong

12. Make UdeS a shining example of equity, diversity, and inclusion
13. Position UdeS as a friendly, welcoming and better place to study and work
14. Shape our work and study settings into more empowering environments
15. Highlight members of the university community and their achievements through an integrated communication strategy
16. Work with our student associations and partners to promote and disseminate UdeS achievements

New ideas and the ability to change the world

17. Weave closer ties to communities in which the University is active
18. Assert our place in the university network, notably through our Longueuil Campus
19. Rise as a leader in knowledge transfer and use, notably through entrepreneurship
20. Continue positioning the University as the Quebec benchmark in sustainable development
21. Engage the world with our partners
22. Acquire the means to carry out the University's mission using a concerted, proactive, and effective approach to government relations

Vision

As a major research university
recognized for the originality of its
programs, Sherbrooke engages with
its communities to shape responsible
citizens who change the world.
