Update of the ICNP Francophone Research and Development Centre of Canada

Dr Sylvie Jetté

Consortium of ICN-Accredited ICNP and R&D Centres and ICNP translators at ICN Congress in Barcelona

May 30, 2017
Main achievements of our 2015-2016 action plan:

- Validation of the 2015 French-Canadian version of the ICNP completed in June 2016 and now available on the website of the International Council of Nurses (ICN)
- A French version of the ICNP *Technical Implementation Guide* produced and sent to ICN.
- A catalogue on adult pain completed and submitted in French and English to ICN in April 2017.
- Contribution to the use of ICNP in Environment for Virtual Apprenticeship (EVA) simulation software (next slide)
- Three poster presentations and two oral presentations at international conferences and three presentations on- invitation delivered.

Action plan for 2017-2018:

- Document the relevance of new terms and forward requests to ICN
- Implement the 2017 French-Canadian version of the ICNP
- Carrying out research projects
Welcome to EVA’s website!

EVA stands for Environment for Virtual Apprenticeship. It allows nursing students to practice the various steps in a clinical evaluation (observation, information gathering, interpretation, etc.) using different clinical vignettes and to document electronically their approach to care (findings, intervention planning and assessment of results).
